Street Frana Kušana 4, House, 10090, Zagreb, Croatia (Home)

### EDUCATION & TRAINING

#### Primary school

**Primary school Gornje Vrapče** [ 2010 - 2018 ]

**City:** Zagreb | **Country:** Croatia

**Website:** <https://os-gornjevrapce-zg.skole.hr/>

#### Geodesy and geoinformatics technician

**Geodesy high school** [ 30/11/2017 - 30/11/2021 ]

**City:** Zagreb | **Country:** Croatia

**Website:** <https://www.geoskola.hr/>

#### Baccalaurea of engineering geodesy and geomatics (univ. bacc. ing. geod. et. geomat.)

**University North (Department of Geodesy and Geomatic)** [ 27/07/2022 - 10/07/2025 ]

**City:** Varaždin | **Country:** Croatia

**Website:** <https://www.unin.hr/geodezija-i-geomatika/> | **Level in EQF:** 6

#### Copernicus Master in Digital Earth (EMJM), Co-funded by the European Union

**University of Salzburg, Palacky University Olomouc** [ 01/10/2025 - Current ]

**City:** Salzburg (Austria), Olomouc (Czechia)

**Website:** <https://master-cde.eu/> | **Level in EQF:** 7

### WORK EXPERIENCE

**Intern** - Croatia, Zagreb

#### Work in geodetic company

I worked for two weeks in a geodetic company called Geometar. There, I got acquainted with the creation of cadastre studies and I made one myself under the guidance of a mentor (other employees), in addition to that, I went to the field where I got to know GNSS instruments and a total station. In the field, I staked out and determined the coordinates of the house and the yard for the preparation of the subdivision study.

I also worked in the AutoCAD software.

**Student** - Croatia, Varaždin and Makarska

#### Working in geodesy and geomatics

I did terrain surveying as a project from my university in the vicinity of Varaždin, and I worked in Makarska on a professional internship under the guidance of the university. In Makarska, I measured with a drone, a total station and a GNSS device, and later I processed the data from the drone in Metashape software.

**Student** - Croatia, Pag

## Working in a grocery store

I worked on the season as a student job for a month. The work was at the cash register and I filled the shelves.

## CONFERENCES & SEMINARS

---

[ 17/06/2024 - 21/06/2024 ] Varaždin, Croatia

**International conference COBGI24** The conference was organized by my department at the university, the department of geodesy and geomatics.

I participated as a volunteer, and I participated in lectures on BIM.

[ 21/05/2025 - 21/05/2025 ] Zagreb, Croatia

**DORS/CLUC 2025** Conference was about OSM (Open Street Map) in Croatia.

## DRIVING LICENCE

---

**Driving licence:** AM

**Driving licence:** B

## HOBBIES AND INTERESTS

---

**Hobbies** My hobbies are listening to songs, singing and dancing. I like to watch movies and series and sometimes read books. I love skiing, cycling, rollerblading, swimming and going to the gym. I also like bowling and biliard. I am fan of Formula 1.

## OTHER

---

### Family and friends

I like spending time with my family. We spend time together on weekends, holidays, family gatherings. I consider them to be my greatest support in the world. I also like to spend time with my friends, we go to the cinema together, to festivals, on trips and together we agree on business ideas for the future.

## COMMUNICATION AND INTERPERSONAL SKILLS

---

### Communication

I like to talk to people about different topics, regardless of whether they are related to the profession or not. I consider myself a good listener and I like to help people by giving them advice. My communication and listening to other people are sometimes not the best and I would like to improve that.
